****File saved in Inches UOM **View is finish side up****

Please don't send over one file at a time for pricing or ordering. All file attachments should be in one email for a quote or order whenever possible.

Please do not submit hand drawn shapes or pictures. Due to high volume, we are unable to provide design services.

Quotes and Orders provided per Milwaukee Steel Rule Die Standards:

Die Board: 5/8" birch. 1" is added on all sides of your design. We add ejection foam may add finger holes for increased efficiency and ease of removing material.

Cut Rule: Per MSRD Standards, Based on material being cut

NOTE! All square corners will be rounded and will not be a precise sharp edge. This is our standard. Square corners need to be welded. We won't be liable for a die that fails if not made to our high standard. If customer requires welded square edges, additional costs apply. It must be specified prior to our providing a quote or it will be an added charge on the order.

Ejection Rubber: Per MSRD Standards, Based on cut rule

Please add any Special Instructions: _____

Please send completed form with your company name and a brief description in the subject line to

Orders@Milwaukeesrd.com

Upon receipt of paid order, your die(s) will be produced within 5 – 7 business days.
